2150 Bell Ave, Suite 125, Sacramento, CA 95838 Ph: 916.642.1751 F:916.313.3438
Contractor's License Number CA#303609

SUBJECT: East Palo Alto – Annual Street Resurfacing

ATTN RESIDENT – NOTICE OF UPCOMING ROADWAY CONSTRUCTION ACTIVITY

Pavement Coatings Co. has been contracted by the City of East Palo Alto to make street improvements to your neighborhood's local streets to improve aesthetics, rideability and extend the overall life cycle of the pavement. These processes will include slurry seal and new pavement striping/markings may require temporary road closures, temporary lane closures, moving closures, and pilot car operations. Please mind all traffic control signs, devices, pilot cars, and personnel while your street is under construction. Please observe the "No Parking" signs; any vehicle left on the street within the posted "No Parking" zone will be towed at the Owner's expense.

THIS LETTER SERVES AS NOTIFICATION FOR THE UPCOMING WORK

Slurry Seal involves the spreading of an emulsion and aggregate mixer that will require drying time before traffic is allowed on the roadway. This aspect of construction may lead to full street closures or pilot car operations. If you need to use your car and do not wish to wait for the street to be opened back up for travel or for a pilot car to escort you through the work zone, please park on an adjacent street. Once the Slurry Seal is set to accept travel, the closures will be lifted.

PLEASE NOTE, YOU MAY RECEIVE THIS NOTICE IF YOUR STREET WILL BE AFFECTED BY WORK TO BE PERFORMED ON A CONNECTING STREET.

CAUTION: DO NOT DRIVE THROUGH THE WET SLURRY SEAL.

This construction activity is "wet" when it is laid, and **MAY** take 3-5 hours of drying time before it can be driven on or walked on without sticking to your vehicle/feet. Failure to obey traffic control signs/devices may result in damage to your vehicle at your own expense. Please do not operate sprinkler systems or drain water of any kind onto the street the day before, the day of, and the day after application of the sealing processes. If your street is scheduled for a resurfacing activity on a trash pickup day, please put your cans curbside the night prior to allow for an early pick up. Your service will not be affected.

For a few days following the resurfacing, please drive at reduced speeds, and avoid sharp turning movements to allow the new surface to fully "set." Please avoid turning your wheels while your vehicle is not moving, the twisting of the tires can tear the new surface.

We regret any inconvenience this work may cause, and we appreciate your cooperation in allowing us to improve your streets and neighborhood. Every effort will be made to complete the work as rapidly as possible, with a minimum inconvenience to the residents of the area. If you desire additional information, please contact Pavement Coatings Co. 916.642.1751.

SEE REVERSE SIDE FOR SCHEDULE

**Thank you,
Pavement Coatings Co.**
